- Customs clearance (applicable only to DAP)
- Import, Export and Transit formalities
- Customized reports
- CO2 measurement and offsetting

RAIL MEETS YOUR BUSINESS DEMANDS

COVERAGE

Connecting continents

With our competence centers in Europe and Asia, we ensure operational excellence across the board. Our dedicated multilingual and cross-culturally experienced team guarantees the best customer experience.

EFFICIENCY

Competitive advantage

A whole range of economic aspects, such as stable energy costs and economies of scale, create the specific benefits of multimodal solutions.

FLEXIBILITY

Responding to your needs

Our extensive network coverage and total control over our own equipment, enable flexible door-to-door solutions that can meet business peaks and market fluctuations.

RELIABILITY

High level of time and cost control

With accurate transit times and stable pricing conditions, we give you the best possible start in planning your supply chain. You can also benefit from our efficient handling of import, export and transit formalities.

SECURITY

Transparent and secure processes

We ensure that your shipments are safe and always visible via our state-of-the-art Track and Trace system. Need even more transparency? GPS monitoring is available on request.

ENVIRONMENT

A significant ecological advantage

Minimize your impact on the environment by reducing your CO2 emission compared to certain different transport modes.
